

Year 1 Global Goals Arts Project 2023 – Good Health and Well-being

We were inspired by Keith Haring and his artwork titled 'Exercise'. We thought about the different movements we might make when exercising or being active.

Year 1 looked at the Sustainable Development Goal 'Good Health and Well-being' as the focus for their artwork. We learnt that looking after our health helps to look after the planet too.

For our individual pieces of art we traced over photos of our active poses and then transferred them on to paper we had painted. We then painted and drew dots onto our background. Finally we added movement lines in the style of Keith Haring.
