

Year 3's Global Goals art work

We were inspired by Andy Warhol, an American pop artist, and in particular by his 'Endangered Species' work and his bright, bold printed colours.

We painted our four backgrounds, selecting bright pop art colours, made printing blocks of endangered animals, thinking about the patterns on the animal skins, and printed our block four times before assembling our final pieces.

Year 3 chose to focus on Global Goal 15, which promotes the preservation of all life on land. We chose to focus on endangered animal species from around the world.
