

Reception DT – Salt dough Christmas decorations

We looked at different Christmas tree decorations and thought about how they hang on a tree. We decided that they can't be too heavy as they will fall off the tree! We also noticed that they are often shiny or brightly coloured so they stand out on the tree.

We made the salt dough by mixing flour, salt and water. Then we rolled it out and cut out our chosen shapes with Christmas cookie cutters. After baking our decorations we painted them and decorated them with glitter. We loved sharing the finished products with you at the Christmas Fair!

Then we designed our own Christmas tree decorations, thinking carefully about the colour and shape.
