

In Reception, we follow the EYFS curriculum document to plan, teach and learn across the three prime areas of learning (**communication and language, physical development, and personal, social and emotional development**) and the four specific areas of learning (**literacy, mathematics, understanding the world, and expressive arts and design**). We teach phonics using the Little Wandle Letters and Sounds Revised systematic synthetic phonics scheme.

Reception play a full part in whole school projects and topics, including our Arts Project and PSHE weeks. Reception also receive weekly teaching from our specialist teachers in music and PE. Our teaching in Reception forms the foundation of our whole school curriculum progression documents and our teaching of National Curriculum content and skills in Years 1-6 builds cumulatively on teaching and learning in Reception.

In Reception, we teach and learn in as cross-curricular and concrete way as possible, often through real life experience or topics based on books. Learning takes place in the classroom, in our outdoor area at school, in fortnightly trips to Hampstead Heath and as part of other visits out of school.

The topics will change year-on-year based on the children's interests in the particular Reception cohort: an example of a typical yearly topic plan is included below.
