

Christ Church

Camden Primary Maths Challenge February 2024

A team of four Year 6 pupils represented Christ Church at the 2024 Camden Primary Maths Challenge. They spent a whole day taking part in a series of tricky maths challenges and activities, competing against teams from schools across Camden.

The team showed brilliant resilience and team work as well as some impressive thinking and maths skills and were very proud to become the champions by a very close margin of only three points!
