

Super assembly, Year 3 – well done!
Thank you for sharing lots of your learning
with us in such an interesting way!

We heard how
you are taking
action to make a
difference linked
to children’s right
to a clean
environment by
planning a litter
pick on the Heath.

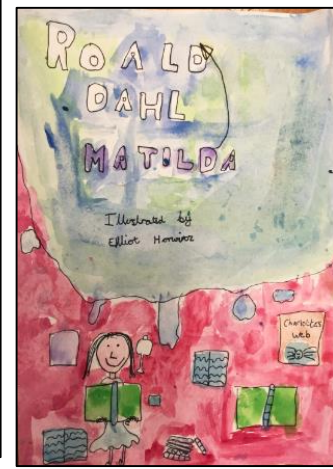

You explained and
demonstrated how you carried
out an enquiry into whether
the length of your femur
affects how far you can jump.
We saw you using your
working scientifically skills to
measure accurately and record
the results.

We loved your water colour
book covers inspired by the
work of Quentin Blake!

We enjoyed your swimming song!
You have been working very hard at
your swimming skills this term and
everyone has improved a lot!
