

# Year Six Summer Term PSHE Week

## Living in the Wider World; Becoming an Active Citizen

During our summer term PSHE week, Year 6 have been learning all about careers. We have learnt about what may be appealing about different careers and jobs; what skills and qualifications we may need to get those roles; and how to apply for them, by writing our own Curriculum Vitae and role playing our own interviews. We considered how we must not stereotype in the workplace and how everyone can aspire to fulfil different jobs and roles whoever they are!

This week we also celebrated Eco-Day. We recapped our learning from last year about food miles and then learnt about biodiversity. Biodiversity means the variety of life in a particular area. The more biodiversity there is, the healthier the ecosystem is. We learnt that it is important we do all we can to encourage the biodiversity of our wonderful world.
