

Year 4 – Cultural Exchange - Italy

May/June 2024

Year 4 linked up with a school in Pegli, near Genoa in Italy. We wrote booklets all about London and our local area and sent them to the children in the year 5 class there. After this, they sent us brochures about different provinces in Italy. It was so interesting learning all about Italy, and it linked brilliantly to our geography learning on Rome. We also had a visit from a group of pupils and staff from the school who came to see

History of London

London is about 1,980 years old. The Roman legions established a settlement known as Londinium on the current site of the city of London around AD 43. London is a very well known city and it is in the UK. London is the capital city of England and London started at AD 43.

Geography

The UK is separated into 4 countries. England is the biggest one. England is divided into 48 counties. In London there are 32 boroughs. Our school is in Camden. Our school is also located in Hampstead.

Some physical features of London are
 Hampstead Heath
 Kew gardens
 The Hackney Marshes
 And a lot of rain!!!
 Since we live in a city, most of the features are man made.

Our school

The average temperature is a high of 19 degrees Celsius and a low of 5 degrees Celsius. In England we experience lots of rain. Our hottest day ever recorded is 41 degrees Celsius.
