

Fabulous assembly, Year 5! You shared your learning in such a professional and impressive way – thank you!

You shared all your science learning including your enquiry trying to propagate plants, told us all about your 'Day of Play' promoting all children's right to play and recited some beautiful poems written about the place which is your idea of 'Paradise'.

We loved your L. S. Lowry inspired gouache paintings demonstrating everything you have learnt about single-point perspective.

You sang brilliantly! And you taught us all about the water cycle, too!
