

# 'Have your say!'

Each pupil in Years 1 - 6 had the opportunity to 'have their say', presenting to the rest of their class about a topic which is important to them. This supports Articles 12 and 13 in the UN Convention on the Rights of the Child, which enable children to share their thoughts freely and have a say in matters which affect them. There were some fascinating presentations on issues as wide-ranging as the importance of peace, protecting endangered species, LGBTQ+ rights in school, age restrictions on social media, fast fashion, how to recycle your plastics, gyms for children, homelessness, growing fruit and vegetables and why therapy dogs are helpful.
