

Science Museum

Year 3

On Tuesday 8th October, Year 3 went on a class trip to The Science Museum. We were so excited about the different things we would see and do in the Wonder Lab.

We saw so many amazing things, from a chemistry show all about dry ice to a model of the Earth and the Moon.

We also went to the Wonder Show, where we saw demonstrations of changing states of matter, forces, and light. We had such a fun day.
