

Fantastic assembly, Year 4! Thank you for presenting all your learning from this term in such a professional and engaging way!

You explained all about your Geography learning on how we divide up the world and your History learning on the different periods in the Stone Age and how historians have found out about them by interpreting archaeological finds.

*KABOOM! Out of nowhere a beeping spaceship came into sight as it hovered above the forest.*

*Whoosh! As the spaceship was landing in front of Heather, it emitted a loud humming noise.*

We loved your song all about the Stone Age!

We heard some super writing inspired by your class book, Lights on Cotton Rock, and including your learning on onomatopoeia!
