

Super assembly, Year 2! Well done for sharing so much of your learning with us so confidently and clearly!

You shared your super stories based on Australian Dreamtime stories!

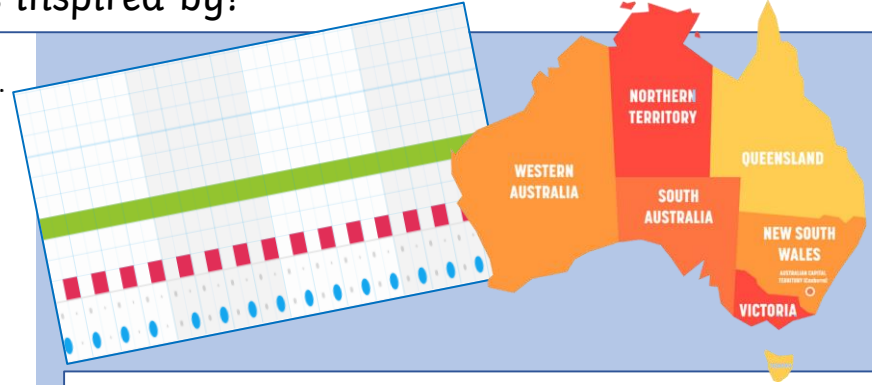

How the snake became very long

Back in the days of the Dreaming the animals looked very different to how you might recognise them today. One of these animals was the greedy snake and all the animals were angry with the snake because he was eating their food.

They were also afraid of the snake when he yawned because they saw his fangs. When he was slithering one day he heard a loud noise but he didn't know what it was so he kept slithering and all of a sudden a long fell on him and squished him. He became very long.

He didn't like his new type of body. He tried to change it by squashing himself between two trees but it didn't work at all. That is how the snake got his long body.

We loved hearing all about the work you have been doing in computing, designing and creating digital music and we enjoyed guessing which animals your music was inspired by!

You explained lots of learning comparing human and physical features of Australia and the UK. You shared some beautiful art work inspired by ancient and contemporary aboriginal art, too!

You are certainly experts on the Great Fire of London! You shared all your learning about how historians have found out about the Fire, as well as the causes and results of the Fire. We loved your Great Fire of London song, too!
