

**Fabulous assembly, Year 5! You shared your learning in such a professional and impressive way – thank you!**

We loved your Chris Plowman inspired cityscape photo montages demonstrating everything you have learnt about perspective.

Your balanced argument about whether the weekend should be three days long was presented brilliantly – you shared some great points for and against!

You shared all your science learning including your enquiry trying to propagate plants, told us about the final four gurus of the Sikhi religion and explained what imagery poetry is!

You sang fantastically and taught us all about the water cycle, too!
