

YEAR 4 CAREERS EVENT

A group of children from our year 4 class went to the British Library to take part in a careers event with other year 4 children from different Camden schools. Before they went, the whole class took part in a lesson to find out what a career is and which employers are on our doorstep here in Camden! At the event, the children had a chance to meet different employers and take part in a range of activities and workshops before coming back to school to share what they had found out with the rest of the class!
