

Year 4 – Natural History Museum

Monday, 1st December, 2025

The dinosaurs are always a big hit when we visit the Natural History Museum!

We were very excited to see some of the fossils Mary Anning discovered on the Jurassic Coast.

Year 4 went on a fantastic trip to the Natural History Museum. We were visiting to learn more about Volcanoes and Earthquakes. We were also eager to hunt for fossils, recalling our Science learning from last year. We took part in a workshop.

on Earthquakes and Volcanoes and found out all about how they are formed or occur, and what the impact of them on people are. We also learnt about two different types of volcanic eruption – effusive and explosive
