

We were able to see how the British Museum architecture is inspired by the Ancient Greeks- featuring the frieze and columns

Year 6 – The British Museum December 2025

We learnt the visual clues to identify particular gods, goddesses and demi-gods on the pots and how stories were told through pictures

We researched Ancient Greek pottery and used what we found to inspire the designs of our own pots we shall be making in school very soon.

We saw parts of the Parthenon from Ancient Greece
