

When we arrived at St Paul's Cathedral, we enjoyed an organ performance with two other Year 5 classes.

Organ Day St. Paul's Cathedral

For our final workshop, we had a go on the organ in the crypt of the Cathedral!

Then, we attended our first workshop, where we learned how to sing a round in the space where the choristers rehearse.

Next, we had a tour around St. Paul's. We even got to see the Dean's Staircase which looks like it is floating and was featured in the Harry Potter films.

Finally, we joined together with the other schools to sing under the dome of St. Paul's.
