

Well done, Year 2! Thank you for a really great class assembly!

There once was a funny teacher who,
loved to jump out of places shouting "BOO!"
We'd leap from our chairs,
With wide, startled stares,
While he grinned like it's something to do.

This teacher likes to play fun games
And she never ever forgets our names
She's ever so kind
And a favourite of mine
She makes our brains work hard with games

You shall never find him without a hat
He sometimes likes to use a bat
He likes Tottenham so much
He likes exercise and such
And does gymnastics with a mat

Your limericks were fantastic and made us all smile and laugh, particularly the ones about the teachers! We all enjoyed guessing who they were about.

You told us that you have been learning how to make negative image collages using shapes and colours. We loved your artworks!

We loved your two songs: one song teaching us all about the life cycle of a frog and one all about how to use a number line for addition in maths!
